Sister Kenny Drive Goes Into High Gear During May

Following weeks of intensive preparation, volunteer workers of the Sister Elizabeth Kenny Foundation went into action yesterday in an all-out drive to reach every citizen in their communities with the story of the work in the neuromuscular field being done at the Kenny Memorial Hospital and to raise \$450,000 which is the Los Angeles County campaign goal for 1957.

Local Chairman Jan Nincevec reported that the fund-drive is off to a flying start. Its beginning was observed at a county-wide luncheon for volunteers at Ciro's yesterday.

Elizabeth Austin, M.D., head of the hospital's neuromuscular program and professor of physical medicine at USC Medical School, explained to the group that the restoration of dignity to the individual is the most important part of the medical treatment at the Kenny Hospital.

Proof of this was presented to the audience by the principal speaker, H. L. Warner of Kaiser Steel, whose wife is a patient at the hospital. Warner, who is a vice chairman of the commerce and industry division of the campaign, told how his wife is a victim of a nerve disease and, although confined to a wheel chair, is learning to lead an active and normal life through the efforts of the rehabilitation program at the hospital.

Also featured on the program were the 1957 poster

twins, Terry and Timmy Thompson, who were patients at the hospital during 1956.

May Baskets

The twins, age 8, presented May baskets to the guests at the head table while Margo Behan, a member of the community relations council of the foundation, read the message printed on the May baskets. The message urged the volunteers to take back to their communities the thought which the basket symbolized—the "joy of giving" particularly a humble gift of happiness and hope for the many patients at the Kenny Memorial Hospital.

Joseph R. Jones, chairman of the board of the foundation, presided at the kick-off luncheon.

The group meets every Tuesday morning at 10 a.m. in the church recreation hall.
